A contemporary and provocative examination of the life of the Buddha highlighting the influence of women from his journey to awakening through his teaching career--based on overlooked or neglected stories from ancient source material. In this retelling of the ancient legends of the women in the Buddha's intimate circle, lesser-known stories from Sanskrit and Pali sources are for the first time woven into an illuminating, coherent narrative that follows his life from his birth to his parinirvana or death. Interspersed with original insights, fresh interpretations, and bold challenges to the status quo, the stories are both entertaining and thought-provoking—some may even appear controversial. Focusing first on laywomen from the time before the Buddha's enlightenment—his birth mother and stepmother, his co-wives, and members of his harem when he was known as Prince Siddhartha—then moving on to the Buddha's first female disciples, early nuns, and to female patrons, Wendy Garling invites us to open our minds to a new understanding of their roles. In this book, we have hand-picked the most sophisticated, unanticipated, absorbing (if not at times crackpot!), original and musing book reviews of "Sex at Dawn: How We Mate, Why We Stray, and What It Means for Modern Relationships." Don't say we didn't warn you: these reviews are known to shock with their unconventionality or intimacy. Some may be startled by their biting sincerity; others may be spellbound by their unbridled flights of fantasy. Don't buy this book if: 1. You don't have nerves of steel. 2. You expect to get pregnant in the next five minutes. 3. You've heard it all. This book tells the story of reform in Russia through the real experiences of individual citizens. Describing in detail the birth of a new era of repression, David Satter analyzes the changes that have swept Russia and their effect on Russia's age-old way of thinking. The first African to receive the Nobel Prize in Literature, as well as a political activist of prodigious energies, Wole Soyinka now follows his modern classic *Ake: The Years of Childhood* with an equally important chronicle of his turbulent life as an adult in (and in exile from) his beloved, beleaguered homeland. In the tough, humane, and lyrical language that has typified his plays and novels, Soyinka captures the indomitable spirit of Nigeria itself by bringing to life the friends and family who bolstered and inspired him, and by describing the pioneering theater works that defied censure and tradition. Soyinka not only recounts his exile and the terrible reign of General Sani Abacha, but shares vivid memories and playful anecdotes—including his improbable friendship with a prominent Nigerian businessman and the time he smuggled a frozen wildcat into America so that his students could experience a proper Nigerian barbecue. More than a major figure in the world of literature, Wole Soyinka is a courageous voice for human rights, democracy, and freedom. *You Must Set Forth at Dawn* is an intimate chronicle of his thrilling public life, a meditation on justice and tyranny, and a mesmerizing testament to a ravaged yet hopeful land. The first book in an epic heart-pounding fantasy trilogy inspired by ancient Indian history and Hindu mythology, perfect for fans of Sabaa Tahir and Renée Ahdieh. * A Book Riot Most Anticipated Novel of 2019 * B&N Top 50 Most Anticipated Novels * A broken bond. A dying land. A cat-and-mouse game that can only end in bloodshed. Esha lost everything in the royal coup—and as the legendary rebel known as the Viper, she's made the guilty pay. Now she's been tasked with her most important mission to date: taking down the ruthless General Hotha. Kunal has been a soldier since childhood. His uncle, the general, has ensured that Kunal never strays from the path—even as a part of Kunal longs to join the outside world, which has only been growing more volatile. When Esha and Kunal's paths cross one fated night, an impossible chain of events unfolds. Both the Viper and the soldier think they're calling the shots, but they're not the only players moving the pieces. As the bonds that hold their land in order break down and the sins of the past meet the promise of a new future, both the soldier and the rebel must decide where their loyalties lie: with the lives they've killed to hold on to or with the love that's made them dream of something more. The 10th-anniversary edition of the book that radical re-evaluated the origins and nature of human sexuality. Since Darwin's day, we've been told that sexual monogamy comes naturally to our species. Mainstream science - as well as religious and cultural institutions - has maintained that men and women evolved in families in which a man's possessions and protection were exchanged for a woman's fertility and fidelity. In this groundbreaking book, however, Christopher Ryan and Cacilda Jetha argue that human beings evolved in egalitarian groups that shared food, child care, and, often, sexual partners. Weaving together evidence from anthropology, archaeology, primatology, anatomy, and psychosexuality, the authors show how far from human nature monogamy really is. With intelligence and humour, Ryan and

Jetha explain how our promiscuous past haunts our contemporary struggles. They explore why many people find long-term fidelity so difficult; why sexual passion tends to fade even as love deepens; why homosexuality persists in the face of standard evolutionary logic; and what the human body reveals about the prehistoric origins of modern sexuality. Shocking, enlightening, and ultimately inspiring, *Sex at Dawn* offers a revolutionary understanding of why we live and love as we do. 'Controversial and fascinating.' -Vogue Australia 'Sex At Dawn is the single most important book about human sexuality since Alfred Kinsey unleashed *Sexual Behaviour in the Human Male* on the American public in 1948.' -Dan Savage, author of the internationally syndicated sex-advice column 'Savage Love' and *The Commitment- Love, sex, marriage, and my family* 'Sex At Dawn has helped me understand myself and the world so much more clearly.' -Ilana Glazer, co-creator of *Broad City* TWO LONG-AGO LOVERS. ONE UNFORGETTABLE PASSION. Prosecutor Faith Barclay has made a successful career putting bad guys behind bars. But the work is starting to get to her. Haunted by the one misstep that set a stalker free, Faith escapes to her family's cabin in Thunder Creek, far from the big city and the recent menacing calls that have her spooked. When she arrives, she encounters another kind of danger: Zach McCallum, the sexy, wild-hearted cowboy who walked out on her ten years before. A SECOND CHANCE IN THE TOWN WHERE IT ALL BEGAN... Zach will never forget those hot, lazy nights in Faith's arms he prayed would never end. Now the beautiful attorney is back in the Wyoming town where they first tasted passion, and this time Zach is determined not to let her get away. But someone else is watching over Faith, leaving threatening messages—someone who has tracked Faith all the way to Thunder Creek. And as passion and danger ignite, it's up to Zach to protect the fiercely independent woman he never stopped loving—no matter what the risk... History and magic intertwine in a fairytale retelling that will capture the hearts of Beauty and the Beast fans. Hope helps you endure. Love will break the spell. Paris, 1870. As the Franco-Prussian War enters its desperate final months, the capitol transforms from a splendid metropolis into a city under siege. Lavish meals change to rations, pigeons deliver letters, and two destinies will collide, challenged by a seemingly unbreakable curse. Every night, New York aristocrat Orin Rush transforms into a monster. After learning that a human heart is the only way to break the curse, he keeps himself carefully distant from anyone he might hurt. Can he lift the enchantment without taking a life? His search for answers leads him to Paris. Every day, free-spirited Claire Turin photographs the people and animals of Paris. Fascinated by the city she loves, her greatest dream is a secret she keeps in her apartment. Her greatest fear is the emptiness of night, when she thinks of the family she's lost. She's never loved anyone else. Maybe she never will. Will Paris and its people survive the hardship of the Siege? Will Orin break the curse? And will two hearts who've never known love awaken in the City of Light? Two women wash up on a distant shore following a violent boating accident. Dazed by their experience, they look for a path home. But they discover that this unfamiliar land is not what it seems - and that, though they may be together, they have never been further apart. Unflinchingly honest and tenderly lyrical, *Meet Me at Dawn* is a modern fable exploring the triumph of everyday love, the mystery of grief, and the temptation to become lost in a fantasy future that will never be. *Meet Me at Dawn* by Zinnie Harris premiered at the Traverse Theatre, Edinburgh, in August 2017. On August 29, 1949, the first Soviet test bomb, dubbed First Lightning, exploded in the deserts of Kazakhstan. The startling event was not simply a technical experiment that confirmed the ability of the Soviet Union to build nuclear bombs during a period when the United States held a steadfast monopoly; it was also an international event that marked the beginning of an arms race that would ultimately lead to nuclear proliferation beyond the two superpowers. Following a trail of espionage, secrecy, deception, political brinkmanship, and technical innovation, Michael D. Gordin challenges conventional technology-centered nuclear histories by looking at the prominent roles that atomic intelligence and other forms of information play in the uncertainties of nuclear arms development and political decision-making. With the use of newly opened archives, *Red Cloud at Dawn* focuses on the extraordinary story of First Lightning to provide a fresh understanding of the origins of the nuclear arms race, as well as the all-too-urgent problem of proliferation. A present-day continuation of the philosophical narrative presented in G.W.F. Hegel's *Phenomenology of Spirit* that confronts every major post-Hegelian philosophical position and arrives at an original reconception of the purpose of dialectical phenomenology. The New York Times bestselling true account of John Chapman, Medal of Honor recipient and Special Ops Combat Controller, and his heroic one-man stand during the Afghan War, as he sacrificed his life to save the lives of twenty-three comrades-in-arms. In the predawn hours of March 4, 2002, just below the 10,469-foot peak of a mountain in eastern Afghanistan, a fierce battle raged. Outnumbered by Al Qaeda fighters, Air Force Combat Controller John Chapman and a handful of Navy SEALs struggled to take the summit in a desperate bid to find a lost teammate. Chapman, leading the charge, was gravely wounded in the initial assault. Believing he was dead, his SEAL leader ordered a retreat. Chapman regained consciousness alone, with the enemy closing in on three sides. John Chapman's subsequent display of incredible valor -- first saving the lives of his SEAL teammates and then, knowing he was mortally wounded, single-handedly engaging two dozen hardened fighters to save the lives of an incoming rescue squad -- posthumously earned him the Medal of Honor. Chapman is the first airman in nearly fifty years to be given the distinction reserved for America's greatest heroes. *Alone at Dawn* is also a behind-the-scenes look at the Air Force Combat Controllers: the world's deadliest and most versatile special operations force, whose members must not only exceed the qualifications of Navy SEAL and Army Delta Force teams but also act with sharp decisiveness and deft precision -- even in the face of life-threatening danger. Drawing from firsthand accounts, classified documents, dramatic video footage, and extensive interviews with leaders and survivors of the operation, *Alone at Dawn* is the story of an extraordinary man's brave last stand and the brotherhood that forged him. By examining the prehistoric origins of human sexual behavior the authors are able to expose the fallacies and weaknesses of standard theories proposed by most experts. This is a provocative, entertaining, and pioneering book. I learned a lot from it and recommend it highly.” — Andrew Weil, M.D. “Sex at Dawn irrefutably shows that what is obvious—that human beings, both male and female, are lustful—is true, and has always been so.... The more dubious its evidentiary basis and lack of connection with current reality, the more ardently the scientific inevitability of monogamy is maintained—even as it falls away around us.” — Stanton Peele, Ph.D. A controversial, idea-driven book that challenges everything you (think you) know about sex, monogamy, marriage, and family. In the words of Steve Taylor (The Fall, Waking From Sleep), Sex at Dawn is “a wonderfully provocative and well-written book which completely re-evaluates human sexual behavior and gets to the root of many of our social and psychological ills.” This is the biggest, grandest, most sprawling epic ever told, filled with battles and hardship, courage, determination, daring voyages into the unknown, and eye-opening discoveries. From the Pulitzer Prize-winning biographer of FDR, Winston Churchill, and Somerset Maugham, Wilderness At Dawn is the sprawling, roughhouse epic of the unsung heroes, heroines, and rogues who tamed the rugged continent that became our country. Sex at Dawn: How We Mate, Why We Stray, and What It Means for Modern Relationships (2010) details how the courtship habits of humanity's closest primate relatives, the lives of early humans, and the sexual rituals of nomadic tribes all shed light on the true urges underlying human sexuality. Many anthropologists assert that monogamy comes naturally to humans; to support their thesis, they point toward relationship customs that have existed in various civilizations for centuries...Purchase this in-depth summary to learn more. In book two of Swati Teerdhala's epic fantasy trilogy, a kingdom will fall, a new ruler will rise, and all will burn. Its 1634 and a ship of Puritans struggles through a storm on its way to Boston. Among them are John Lee, an ancestor of two future princes of England, and Grace Newell, both 13-year-old wards of William Westwood, their congregation's lawyer. During the storm, John sees 19-year-old Richard Hawkes, a petty thief and murderer, steal their church's gold inlaid silver chalice. The next day, when the chalice is missing, Richard threatens to kill Grace unless John swears to conceal the theft. John agrees if Richard returns the chalice. With few options, Richard agrees. Over the next 40 years, challenges and opportunities present themselves amidst Indian wars and witchcraft trials. Richard lies, steals, and murders his way to fortune and influence, while John becomes a soldier, civic leader, and Indian teacher. Each attracts followers, while both compete for the affection of the same woman. John's guilt over his oath grows as he blames himself for unleashing Richard's evil upon his community. At the same time, he

believes breaking his oath would be a great sin. Nesehegan, one of John's Indian students, tells John how he resolved his conflict between loyalty to his tribe and his belief in God. Months later, Richard calls John as a witness at Richard's murder trial. Confronted with a question he can't answer without breaking either his oath to God or his oath to the court, John remembers Nesehegan's story.

Mainstream science—as well as religious and cultural institutions—has maintained that men and women evolved in families in which a man's possessions and protection were exchanged for a woman's fertility and fidelity. But this narrative is collapsing. Fewer and fewer couples are getting married, and divorce rates keep climbing as adultery and flagging libido drag down even seemingly solid marriages. How can reality be reconciled with the accepted narrative? It can't be, according to renegade thinkers Christopher Ryan and Cacilda Jeth . While debunking almost everything we "know" about sex, they offer a bold alternative explanation in this provocative and brilliant book. Ryan and Jeth 's central contention is that human beings evolved in egalitarian groups that shared food, child care, and, often, sexual partners. Weaving together convergent, frequently overlooked evidence from anthropology, archaeology, primatology, anatomy, and psychosexuality, the authors show how far from human nature monogamy really is. Human beings everywhere and in every era have confronted the same familiar, intimate situations in surprisingly different ways. The authors expose the ancient roots of human sexuality while pointing toward a more optimistic future illuminated by our innate capacities for love, cooperation, and generosity. With intelligence, humor, and wonder, Ryan and Jeth  show how our promiscuous past haunts our struggles over monogamy, sexual orientation, and family dynamics. They explore why long-term fidelity can be so difficult for so many; why sexual passion tends to fade even as love deepens; why many middle-aged men risk everything for transient affairs with younger women; why homosexuality persists in the face of standard evolutionary logic; and what the human body reveals about the prehistoric origins of modern sexuality. In the tradition of the best historical and scientific writing, *Sex at Dawn* unapologetically upends unwarranted assumptions and unfounded conclusions while offering a revolutionary understanding of why we live and love as we do. Winner of the Global Ebook Award for Best Historical Fiction

The issue of military executions during the war has always been controversial and embargoes have made it difficult for researchers to get at the truth. Now these two writers give us a vast amount of information. They show that trials were grossly unfair and incompetent. Many of the condemned men had been soldiers of exemplary behaviour, courage and leadership but had cracked under the dreadful strain of trench warfare. This acclaimed book is the authority on this shameful saga. Sentenced to death for abandoning his unit, a soldier recounts the events leading up to his arrest. The reality of trench warfare is a shock to Allan McBride. Like many other young soldiers, he enthusiastically signed up for the chance to join the war effort and be a part of the fighting. But after months in the ravaged battlefields, watching men, including his friend Ken, get blown up by German shelling, something in Allan snaps and he leaves his unit, believing he is "walking home to Canada" to get help for his friend. After nearly a week of wandering aimlessly, Allan is taken in by a band of real deserters — men who have abandoned their units and live on the edge of survival in the woods of northern France. Once Allan realizes what he's done, he is paralyzed by the reality of his circumstance: if he stays with these men, it's possible they will be found and have to face the consequences; and if he returns to his unit, he will be charged with desertion — a charge punishable by death. In this outstanding new title in the *I Am Canada* series, acclaimed author John Wilson explores life in the horrific trenches of WWI and the effect of battle on a shell-shocked soldier. Kimberly Marie presents her debut novel. Set in Victorian England, it follows a young woman challenged by memories of her past. A story of; love, healing, female resiliency, and forgiveness. Kimberly Marie considers herself a consumer of stories. She has always embraced the beauty of imagination and its ability to transport someone to a new world, so

it was only natural that she put her own imagination on paper. Featuring character-driven plots, her works focus on the journey of her characters, creating multi-layered stories that embrace growth and the human experience. An author who refuses to label herself with a genre, Kimberly chooses to focus on the protagonists and where life takes them, rather than fitting into a predetermined mold. Throughout school, she always had a penchant for writing, but it was not until she lived and worked in Washington, D.C. after college that she discovered a love of reading. Having run out of room on every bookshelf in her home, she has now picked up the pen to write stories of her own. In the fog of a Paris dawn in 1832, fvariste Galois, the 20-year-old founder of modern algebra, was shot and killed in a duel. That gunshot, suggests Amir Alexander, marked the end of one era in mathematics and the beginning of another. Arguing that not even the purest mathematics can be separated from its cultural background, Alexander shows how popular stories about mathematicians are really morality tales about their craft as it relates to the world. In the eighteenth century, Alexander says, mathematicians were idealized as child-like, eternally curious, and uniquely suited to reveal the hidden harmonies of the world. But in the nineteenth century, brilliant mathematicians like Galois became Romantic heroes like poets, artists, and musicians. The ideal mathematician was now an alienated loner, driven to despondency by an uncomprehending world. A field that had been focused on the natural world now sought to create its own reality. Higher mathematics became a world unto itself—pure and governed solely by the laws of reason. In this strikingly original book that takes us from Paris to St. Petersburg, Norway to Transylvania, Alexander introduces us to national heroes and outcasts, innocents, swindlers, and martyrs—all uncommonly gifted creators of modern mathematics. Find the magic in this collection—the moments and words that seem to glimmer and shine with their own inner light. Find deep magic in the pages of Beau Taplin's third book, *Here at Dawn*. The message is this: There is nothing ordinary about you or this remarkable world we inhabit, there is wild beauty, there is poetry, alive all around you. The secret is knowing where to look...and you can start right here. Jack and Annie journey back in time in the Magic Tree House to medieval England, where they encounter a remarkable castle that comes complete with a fierce dragon, terrifying dungeon, and secret passageway. 'I Could not look on Death, which being known, Men led me to him, blindfold and Alone.' (Epitaphs of the war: 'The Coward') Thus, in two short, bitter lines, Rudyard Kipling summed up a series of events that are among the most shameful and inglorious in all British history: The executions by firing squad of some 350 members of the British and Empire forces during the First World War. Based on years of painstaking research, this is the first book to give complete details of all these executions, including names of victims; their 'crimes'; the circumstances, dates and places of execution, and of burial (where known); names of regiments and other units; and victims' personal histories and private circumstances (where known). The authors demonstrate the ineptness, ignorance and unfairness of the British court martial system at the time, and how frequently condemned men (from almost every regiment and corps in the army) were proved to have been formerly brave soldiers who had simply cracked under the pressure of trench warfare. These men were judicially killed as a lesson to other soldiers who, it was thought, might themselves crack. In the event, many of the victims went to their deaths with unbelievable courage and dignity, as eye-witness accounts in this book show. Here, too, are details of how next-of-kin of executed men were hoodwinked into believing that their men had died in action, a system of cover-up which persists to this day. **SELLING POINTS:** The controversy over the execution of 350 British and Empire soldiers still rages The definitive account of this shameful saga Hugely successful book Illustrated Having settled in at Shadow Falls Camp, a training ground for vampires, werewolves, and other supernatural beings, sixteen-year-old Kylie Galen is eager to discover what her abilities might be, but an interfering ghost and a rogue vampire on a murdering rampage get in the way of her search.
