Popular Culture and Political Identity in the Arab Gulf States Nov 05 2021 As the Gulf assumes an ever more important identity in the global political economy, we see the emergence of a new popular and political culture underpinning its increasingly self-confident national identities. This volume explores the new dynamism of the Gulf, reflected not just in high-rise buildings and booming stock markets, but also manifested in the realms of art, ideas and expression, and their relationships with political authority. Contributors include figures instrumental to the emergence of these new identities, including artists, broadcasters and cultural commentators.

The Evolving Arab City Feb 08 2022 Today cities of the Arab world are subject to many of the same problems as other world cities, yet too often they are ignored in studies of urbanisation. This collection reveals the contrasts and similarities between older, traditional Arab cities and the newer oil-stimulated cities of the Gulf in their search for development and a place in the world order. The eight cities which form the core of the book – Rabat, Amman, Beirut,

Kuwait, Manama, Doha, Abu Dhabi and Riyadh – provide a unique insight into today's Middle Eastern city. Winner of The International Planning History Society (IPHS) Book Prize.

Event Bidding Apr 10 2022 Bidding contests for sporting and cultural events are attracting increasing media and public attention. Yet, despite the cost, size and scale of these bidding contests, relatively little academic attention has been paid to the strategies and tactics used to develop successful bids. *Event Bidding: Politics, Persuasion and Resistance* develops a comprehensive, critical understanding of the bidding processes surrounding the award of major peripatetic events. This is achieved by drawing together existing knowledge on the subject of event bidding, combining this with historical and contemporary examples to enable a critical commentary on the bidding process itself and the struggle for power that it represents. The text draws on case studies of 'mega events' including the FIFA World Cup and the Olympic Games as well as a range of smaller peripatetic events from across the world to analyse the bidding process and some of the increasingly controversial issues which emerge during often lengthy and expensive bid campaigns. Finally, the text reflects on a range of critical issues of contemporary significance in bidding contests, including the growing ethical and governance issues surrounding the development and award of events as well as the impact of growing oppositional movements surrounding each contest. This timely volume brings theory and practice together in one place to produce a critical appraisal of a phenomenon with a relatively recent history and is particularly suitable for students, researchers and academics of sports, events, tourism and related subject fields focusing on the strategic and political dimensions of major events.

Baseball Haiku: The Best Haiku Ever Written about the Game Feb 20 2023 Presenting more than two hundred of the greatest haiku ever written about the game. There are moments in every baseball game that make fans catch their breath: the pause while a pitcher looks in for the sign, the moment a

cocksure rookie gets picked off first, or the instant a batter lashes a game-winning homer into the night sky, just before the sell-out crowd explodes onto its feet. Haiku captures these moments like no other poetic form, and Baseball Haiku captures the sights, the sounds, the smells, and the emotions of the game like no previous collection. Some of the most important haiku poets of both America and Japan are featured in this anthology; including Jack Kerouac, a longtime baseball fan who pioneered English-language haiku; Alan Pizzarelli, one of the top American haiku and senryu poets of the last thirty years; and Masaoka Shiki, one of the four great pillars of Japanese haiku—a towering figure—who was instrumental in popularizing baseball in Japan during the 1890s. With over two hundred poems spanning more than a century of ball playing, Baseball Haiku reveals the intricate ways in which this enduring and indelible sport—which is played on a field, under an open sky—has always been linked to nature and the seasons. And just as a haiku happens in a timeless now, so too does Baseball Haiku evoke those unforgettable images that capture the actions and atmospheres of the national pastime: each poem resonates like the lonely sound of cleats echoing in the tunnel as a grizzled veteran leaves his final game. The largest collection of haiku and senryu on baseball ever assembled, Baseball Haiku is an extraordinary treasure for any true baseball fan.

Contemporary Urban Issues Oct 04 2021

The Book of L Nov 17 2022 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book,

the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "O" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and O (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Olympic Cities Jul 13 2022 This volume provides an overview of the changing relationship between cities and the Olympic Games, starting from the year 1896. Blending critical conceptual insight with grounded case studies, this book, divided into three parts, explores the historical experience of staging the Olympics from the point of view of the host city.

10 Great Dates to Energize Your Marriage Jan 19 2023 Small groups of couples can learn important skills and revitalize their marriages with this fun and unique approach. "You will love growing together while going out together."-John Gray Author of Men Are from Mars, Women Are from Venus Remember back to your dating days—the excitement you felt? Now you can reclaim that same spark, connection, and creativity in your marriage through ten intentional, memory-making dates. This proven approach to relationship growth is low-key, purposeful, effective, easy, and fun, and will help you * Communicate better* Put the sizzle back in sex* Process anger and resolve conflicts* Develop spiritual intimacy* Appreciate your differences* Balance busy lifestyles* And much more! Enjoy your dates alone as a couple or start your own 10 Great Dates group in your church or community. You probably already know 5-6 couples who could benefit from time-out to build their marriage and enrich

their relationship with 10 Great Dates. See 10 Great Dates DVD Curriculum for everything you need to lead this effective, husband-friendly and fun program.

Urban Challenges in the Globalizing Middle-East Jun 12 2022

This publication aims to investigate the nature of social life in public and urban spaces in the cities of the Middle East, considering the value of environmental approaches. It aims to develop a better understanding of the patterns of social interactions and activities in public places, which have been influenced by cultural heritage values.

Sustainable and livable open spaces can help in improving living conditions in cities. Public spaces are relevant as they satisfy many human needs. In public spaces, people interact and meet; people with different cultures and social backgrounds can communicate and learn from each other in social and spontaneous ways. However, decision-makers tend to forget the value of public spaces, especially in the absence of a national regulatory framework in emerging globalized cities. The book provides a multi-disciplinary approach in reading the characteristics and values of public spaces in the emerging cities of the Middle East.
