Then one day her father disappears, and she is left to fend for herself. Alone and penniless, she is sentenced to transportation for a crime she didn't commit. Once Hannah considered Thomas beneath her: a servant, a commoner. Now she thinks of him more and more. But will she ever see him again? One girl's adventure to find happiness becomes a fairytale within a fairytale. A romantic story of power and love. Sixteen-year-old Dru's worst fears have come true - Sergej, the deadly nosferat, has kidnapped her best friend Graves and she must now go on a suicidal rescue mission to bring him back in one piece. That is, if she can put all of Christophe's training to good use, defeat her mother's traitor, Anna, once and for all, and manage to survive another day... The second novel

in the Strange Angels series picks up with Dru neatly tucked away in a Schola that's more like a prison than a secret training facility. Except for one tiny detail . . . she's the only girl in the place and is totally surrounded by tons of cute boys. But a traitor in the Order wants Dru dead and she can't trust anyone except for Graves. Too bad he's being kept busy with a new crew of wulfen teens and doesn't have time for her. As she learns the truth about who she can and can't trust, Dru's only hope may be to save herself - although the one gift that makes her special is draining away, and she doesn't know how to get it back. Will Dru survive long enough to find out who is really after her? Or is she destined for the same fate as her murdered parents? Lili's characters come alive on the page in a way that's visually stunning and she creates the same terrific pace, danger and teen romance as in Strange Angels. It will be a challenge in a place where ugly things lurk under frozen surfaces, and silence is a way of life.

The debut collection of poetry from Lili Reinhart, the actress and outspoken advocate for mental health awareness and body positivity. I seem to be your new favorite novel. One that keeps you up at night, turning my pages. Fingers lingering on me so you don't lose your place. Swimming Lessons explores the euphoric beginnings of young love, battling anxiety and depression in the face of fame, and the inevitable heartbreak that stems from passion. Relatable yet deeply intimate, provocative yet comforting, bite-sized yet profound, Lili's poems reflect her trademark honesty and unique perspective. Accompanied by striking and evocative illustrations, Swimming Lessons reveals the depths of female experience, and is the work of a storyteller who is coming into her own. This edited volume presents a collection of empirical studies examining the teaching and learning processes in science classrooms in Content and Language Integrated Learning (CLIL) contexts. It is a timely contribution to the rapidly growing body of CLIL research in response to scholars' consistent calls for more classroom-based research on the issues in integration of content and language teaching in lessons. With the dual goal of content and language learning, students in CLIL programmes are also facing double challenges - mastery of abstract, cognitively demanding content knowledge and unfamiliar academic language. Focusing on the notion of "scaffolding", this edited volume demonstrates

how science teachers can provide appropriate and timely scaffolding for their students to overcome the challenges in CLIL science classrooms. With studies from different educational settings (Hong Kong, Mainland China, Singapore and Australia) and epistemological paradigms, and adopting a variety of research designs, this volume will provide key insights into CLIL pedagogy and teacher education. Originally published as special issue of *Journal of Immersion and Content-Based Language Education* 7:2 (2019). The book provides theoretical and empirical evidence on how world trade evolves, how trade affects resource allocation, how trade competition affects productivity, how China shock affects world trade and how trade affects large and small countries. It is a useful reference which focuses on new approaches to international trade by looking into country-specific as well as firm-product level-specific cases.

Against a background of controversy over the possibility that works of art owned by American collectors may have originally been stolen by the Nazis from Jews later killed in the holocaust, the story of one work of art Landscape with Smokestacks by Degas captured the headlines. As told by the media, the story is straightforward. The landscape, owned by Jewish banker in the Netherlands, was sent to Paris in 1939. The Nazis occupied France and stole the Landscape. The Jewish banker and his wife were killed in the Holocaust. Their heirs searched for the landscape but did not locate it until, half a century later, it was found in the possession of an art collector in Chicago. The heirs sued to recover the work.
