A Grammar of Hdi Nov 19 2022 Hdi is a hitherto undescribed language spoken in northern Cameroon. The language belongs to the Central Branch of Chadic. The aim of the book is to provide a fairly complete description of the grammar of this language. Consequently, the grammar describes the phonology, morphology and syntax of Hdi and the semantic and discourse functions coded in this language. Most clauses in Hdi are verb-initial, with the subject directly following the verb. The object is often marked by a preposition. What makes Hdi unusual is that the object-marking preposition is unique and does not function elsewhere as a locative preposition. Another interesting feature of Hdi is that there are two types of clauses, pragmatically independent and pragmatically dependent, and that the difference between these is coded by different

tense and aspectual systems. In addition, there are two clausal orders for complex sentences: The order embedded clause-matrix clause codes one type of modality, while the order matrix clause-embedded clause codes another. The language also has a rich system of verbal extensions coding the semantic roles of arguments and adjuncts and the direction of movement. The grammar is of interest not only to linguists working in African, Chadic and Afroasiatic linguistics, but also to general linguists, since it describes phenomena rarely seen in other languages of the world. The grammar is described in terms accessible to linguists working within various theoretical frameworks.

The Touch of His Hand Sep 17 2022 Through my Near Death Experience, I have known there would be a time to tell part of my story. There are other books that share their experiences of Near Death stories and these books were meant to be written. The difference with *The Touch of His Hand*, not everyone needs to have experienced a life and death journey and go through the beautiful bright light. A near Death experience is a gift brought back to help guide us all on our journeys and to share with others. By

helping tell the experiences of others is a beginning journey of their own. His guiding Hand touches us all.

Northern Irish Writing After the Troubles Dec 28 2020 The period since the Good Friday Agreement in 1998 has seen a sustained decrease in violence and, at the same time, Northern Ireland has undergone a literary renaissance, with a fresh generation of writers exploring innovative literary forms. This book explores contemporary Northern Irish fiction and how the 'post'-conflict period has led writers to a renewed engagement with intimacy and intimate life. Magennis draws on affect and feminist theory to examine depictions of intimacy, pleasure and the body in their writings and shows how intimate life in Northern Ireland is being reshaped and re-written. Featuring short reflective pieces from some of today's most compelling Northern Irish Writers, including Lucy Caldwell, Jan Carson, Bernie McGill and David Park, this book provides authoritative insights into how a contemporary engagement with intimacy provides us with new ways to understand Northern Irish identity, selfhood and community.

Directed by God Jun 02 2021 As part of its effort to forge a new secular Jewish nation, the nascent Israeli state tried to limit Jewish religiosity. However, with the steady

growth of the ultraorthodox community and the expansion of the settler community, Israeli society is becoming increasingly religious. Although the arrival of religious discourse in Israeli politics has long been noticed, its cultural development has rarely been addressed. *Directed by God* explores how the country's popular media, principally film and television, reflect this transformation. In doing so, it examines the changing nature of Zionism and the place of Judaism within it. Once the purview of secular culture, Israel's media initially promoted alternatives to traditional religious expression; however, using films such as *Kadosh*, *Waltz with Bashir*, and *Eyes Wide Open*, Yaron Peleg shows how Israel's contemporary film and television programs have been shaped by new religious trends and how secular Israeli culture has processed and reflected on its religious heritage. He investigates how shifting cinematic visions of Jewish masculinity and gender track transformations in the nation's religious discourse. Moving beyond the secular/religious divide, *Directed by God* explores changing film and television representations of different Jewish religious groups, assessing what these representations may mean for the future of Israeli society.

Engaging Soccer Coaching Games Jun 14 2022 Why repeat endless drills when players are not in the army? Why queue when all players can be actively involved throughout? Why repeat when you can innovate? Why only replicate the past when the sky's the limit? Why tell players the answers when they can discover solutions for themselves? Open players' minds by providing engaging games that put them in control. Each game within provides an interesting problem that challenges players to

find personalised solutions that are embedded through immersion. Players become empowered to take responsibility for their learning through experimentation. Common drills and practices direct players to use set solutions for contrived scenarios, reinforcing a closed mindset to problem solving. Instead the games within open players' minds to a range of possibilities by guiding them towards a wider range of tools. This allows players to identify which tools are more relevant to each situation, without limiting their use. Each game uses a realistic situation to solve a particular problem, whilst making it difficult for players to 'cheat'. Players are subtly guided towards discovering the relevant skills and tactics. Games are diverse, engaging and have flexible conditions to suit a range of ability levels. Over 250 games across a range of topics cater for coach specific challenges such as: Building up play from the back, Making learning technical skills enjoyable, Developing shape, Preventing players from chasing and crowding the ball, Developing fitness by maintaining session intensity. This book also offers a few awful games and drills to compare with and to explain how common games are often counter-productive. Whilst many appear active and impressive, their hidden drawbacks are identified within.

Theatricality as Medium May 13 2022 Ever since Aristotle's Poetics, both the theory and the practice of theater have been governed by the assumption that it is a form of representation dominated by what Aristotle calls the "mythos," or the "plot." This conception of theater has subordinated characteristics related to the theatrical medium, such as the process and place of staging, to the demands of a unified narrative. This readable, thought-provoking, and multidisciplinary study explores theatrical writings that question this aesthetical-generic conception and seek instead to work with the medium of theatricality itself. Beginning with Plato, Samuel Weber tracks the uneasy relationships among theater, ethics, and philosophy through Aristotle, the major Greek tragedians, Shakespeare, Kierkegaard, Kafka, Freud, Benjamin, Artaud, and many others who develop alternatives to dominant narrative-aesthetic assumptions about the theatrical medium. His readings also interrogate the relation of theatricality to the introduction of electronic media. The result is to show that, far from breaking with the characteristics of live staged performance, the new media intensify ambivalences about place and identity already at work in theater since the Greeks. Praise for Samuel

Weber: “What kind of questioning is primarily after something other than an answer that can be measured . . . in cognitive terms? Those interested in the links between modern philosophy and media culture will be impressed by the unusual intellectual clarity and depth with which Weber formulates the . . . questions that constitute the true challenge to cultural studies today. . . . one of our most important cultural critics and thinkers”—MLN

Lilith Jun 21 2020 They have always been with us: the children of the Wastelands. The spawn of human dreams. Born of human yearning - born from dreams of lust. Intellects created out of unbridled hunger. The Succubi. Feeding from our love, they walk amongst us, wearing the bodies of our dead. And their love kills as surely as a severed vein. Lilith: Be careful what you wish for.

When You Went Away Feb 10 2022 This book is full of memories and emotions, and memories of those we love and have loved. There's so much more to say; yet we've touched some feelings, so that we can again feel what we felt then. We trust the reader will love and enjoy these simple past experiences and ideas we hear everyday. Experiences with feelings, could that explain the poetry, and helpfully something that everyone can be given as a gift to someone who has experienced a loss. We all have and will several times during our life that seems so brief.
